... FOR THE UPCOMING ONLINE-EVENT “SUSTAINABLE COMPOSITES CONFERENCE – SCC” THURSDAY, 10TH NOVEMBER 2022

Today's oil-based composite materials provide a significant contribution to advanced lightweight design solutions for a reduction of required resources and emitted CO₂ amounts. Efficient recycling of these materials is a key to maximize their benefit in this sense.

However, today's recycling processes are associated with a certain fiber length degradation, so another major emphasis besides recycling has to be put on the development of new virgin sustainable composite materials with endless-fiber properties. The goal must be to move away from crude oil a source, not only for sustainability reasons, but also for reasons of the current political situation as well as material independence for Europe.

In this sense, the Sustainable Composites Conference (SCC) is meant to be a platform for novel composite materials based on renewable resources as well as negative emission technologies/materials in order to present innovations in this field and jointly advance the topic together as fiber composite industry.

The event will take place in the virtual MixUp-World, an animated 3D environment imitating a real trade fair. Visitors walk around with a virtual avatar and are able to interact, visit booths or follow the presentations on a moderated centre stage. Exhibitors can book a booth and present their own technologies & solutions to the visitors. You can get an impression here: <https://mixup.world/>.

Numerous groundbreaking presentations from different countries will be given on the moderated centre stage. Also, innovative start-ups and companies will present themselves in efficient pitch sessions. The virtual world also allows for very personal interaction with the other visitors and thus lets you expand your network easily.

We are looking forward to a lively participation with representatives from all major markets.

CALL FOR PAPERS

PRELIMINARY AGENDA

all times are CET (Zurich/Berlin/Paris/Rome/Amsterdam time)

THURSDAY, 10TH NOVEMBER

08:30 am	LOGIN
08:50 am	Welcome and introduction
09:00 am - 10:00 am	3 presentations, 20 min. each (15 min. + 5 min. Q & A)
10:30 am - 11:00 am	5 pitches, each 5 min. with transitions
11:00 am - 12:00 pm	3 presentations, a 20 min. (15 min. + 5 min. Q & A)
12:00 pm - 02:00 pm	LUNCH & NETWORKING & TRADE FAIR
02:00 pm - 03:00 pm	3 presentations, a 20 min. (15 min. + 5 min. Q & A)
03:00 pm - 03:30 pm	30 min. networking & trade fair)
03:30 pm - 04:00 pm	5 pitches, each 5 min. with transitions
04:00 pm - 05:00 pm	3 presentations, a 20 min. (15 min. + 5 min. Q & A)
05:00 pm	END OF CONFERENCE (the virtual world remains open)

For more information on the event, program, prices and online registration please follow the link: <https://composites-united.com/en/events/sustainable-composites-conference-scc/>

WE WOULD LIKE TO INVITE YOU ...

... to submit an abstract for a presentation (either 15 min. keynote or 5 min. pitch) on the topics of renewable composites/negative emission technologies/biobased materials (or similar, linked to the usage of composites).

ONLINE-EVENT "SUSTAINABLE COMPOSITE CONFERENCE – SCC", THURSDAY, 10TH NOVEMBER

DEADLINES

- > Abstract submission deadline 30th September, 2022
- > Notification of acceptance 17th October, 2022
- > Complete presentation due 4th November, 2022

For the abstract, please submit the title and short description (50-100 words) of your intended presentation. As the conference is going to be held in English, we ask you to provide your abstract solely in English.

PLEASE SUBMIT YOUR ABSTRACT VIA EMAIL TO:

Theo Sandu (theo.sandu@composites-united.com)

FOR MORE DETAILS PLEASE CONTACT:

(Also about how to book a booth as an exhibitor)
