Invitation to sponsorship

Dear Potential Sponsors and Business Partners

It is with great pleasure that we welcome you to the Scandinavian Maritime Fair at Øksnehallen located close to the Copenhagen Central Station.

More than 3,000 international professionals from the maritime industry worldwide will be visiting the Scandinavian Maritime Fair and Scandinavian Maritime Conference in May 2024. We offer an exhibition showing sustainable solutions, innovations, new technologies where you can conduct face-to-face interaction with prospective customers, clients, partners, and industry leaders building rapport and working relationships that may be beneficial in the future. The Scandinavian Maritime Fair offers an opportunity not only to speak with existing partners but to start conversations with other businesses that may be ideal partners in the future.

The story behind Scandinavian Maritime Fair

The Danish Maritime Fair was founded in 2014 and has since then formed the framework for the largest maritime fair in Denmark with visitors from all over the world.

In 2022, the Danish Maritime Fair and MCI Copenhagen A/S entered a partnership, with the aim of internationalizing the fair. This gave rise to a new name and so the Danish Maritime Fair changed its name to the Scandinavian Maritime Fair.

In 2024 the Danish Maritime Fair celebrates its 10th anniversary, and this provides an excellent opportunity to launch the Scandinavian Maritime Fair.

Scandinavian Maritime Conference

Concurrent with the Fair a two-day conference with important topics will be conducted. The conference will be organized in collaboration with leading maritime knowledge institutions and maritime companies and organizations.

Follow us on LinkedIn to learn more about the upcoming Scandinavian Maritime Fair and Scandinavian Maritime Conference.

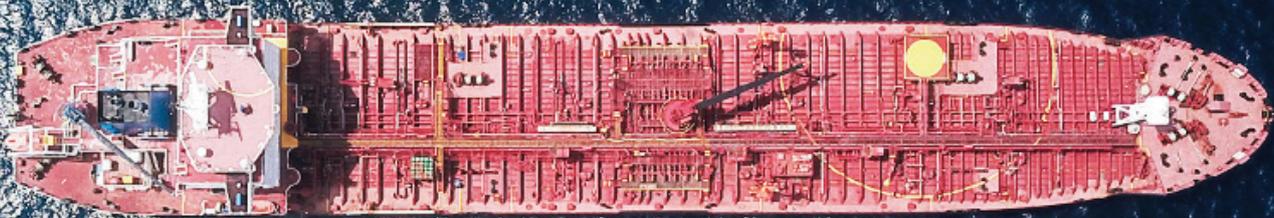

Main organizers

The Fair and Conference is organized by René Wittendorff, CEO, Maritime Medier, together with Kirsten Weede, Communications & Marketing Manager, and Per Ankær, CEO, both from the professional conference organizer MCI Copenhagen.
